The City of Vacaville's Community Services Department is offering a new class for those 50+ lifelong learners interested in discovering the dynamic nature of Earth. The class, "Earth Moves," will discuss earthquakes and volcanism and will link these effects to plate tectonics.

Beverly Morlock, a credentialed science teacher and avid geologist, will teach the class. Participants will be engaged in experiments, reading, rock identification and a virtual 'field trip' to Hawaii. The four-week-long class will be held at the McBride Center, 91 Town Square Place on Monday, February 5 from 10 a.m.–12:30 p.m. Cost is \$30. Interested individuals can register at any Community Center or visit www.cityofvacaville.com. Call 469-6674 for more program information.
