## **CALIFORNIA ENERGY COMMISSION SITE VISIT AND INFORMATIONAL MEETING AT EASTERLY WASTEWATER PLANT TO BE BROADCAST ON CHANNEL 26**

On March 12, 2009 the California Energy Commission held a Site Visit and Informational Meeting at the Easterly Wastewater Treatment Plant regarding the proposed construction of a power plant at the site.

The entire meeting will be broadcast on Channel 26 on the following days and times:

- Monday, Wednesday and Friday: 8 p.m.
- Tuesday, Thursday, Saturday and Sunday: Noon

The purpose of the meeting was to provide the public a chance to see the proposed site of the CPV Vaca Station energy center as well as to provide comments to the commission. The proposed facility is a natural gas-powered, combined-cycle electrical generation facility nominally rated at 660 megawatts (MW) of power.

For more information on the project, please visit the following websites:
