

Attached is the statistical data that you requested. Keep in mind that statistical data in and of itself can be misleading.

Here are some things that you should know:

- This data reflects reported crime only. Not everyone reports crime.
- This report reflects crimes that were reported in the calendar year 2007.
- The people who committed the reported crimes could be in jail or in another community now, no longer posing a threat to our community.

Any area can turn around and be a pleasant place if more good neighbors like you reside there.

When considering a relocation, it is advantageous to:

- Visit the neighborhood at various hours of the day, on several days.
- Check to see if there is adequate parking for your needs.
- Is the noise at a tolerable level for you?
- Check the lighting at night.
- Do you feel safe there?
- Walk and talk to the neighbors and ask them about the neighborhood.
- Do the neighbors seem friendly?
- Is there much graffiti?
- Are there dogs running loose?
- Is there much traffic?

Only you can decide what kind of neighborhood you want for yourself. We hope this has helped.

When you do get settled in, if there is not an active Neighborhood Watch group, consider forming one. Contact the Vacaville Police Department's Crime Prevention Unit for further details at 449-5432 or email crimeprevention@cityofvacaville.com.

The information that follows is read in two parts. The first is the map. Find the location you are interested in and obtain the three digit number for that location (reporting district number). The next page will have the district number and the crimes reported by district. Compare your area with other areas in the city.

The Vacaville Police Department prides itself on being proactive and professional. We invite you to discover Vacaville and hope you choose to live here.

Chief Richard Word

Vacaville Police Department Annual Crime Statistics 2007

(707) 449-5432
660 Merchant St, Vacaville CA
